

the governor of Illinois and various businessmen, and it had not occurred to the men who arranged the dinner that they should not invite a Negro. A senator. Under the circum-

HON. MR. GRAHAM TURNS FIRST SOD AT THE PAS

First Sod in Connection with the Building of Big Hudson Bay Railway—Importance of Event Marked by Appropriate Ceremonies.

Pas Mission, Keewatin, Sept. 8.—The first sod in connection with the erection of a bridge across the Hudson Bay river was turned here today by the Hon. George P. Graham, minister of railways. As the building of this structure is preliminary to the construction of the railway to Hudson Bay and the opening of traffic on the new route to Great Britain, a deep interest was taken in the event.

The day was one long to be remembered in the Pas and a number of people were present from various points in the province of Saskatchewan. The special train which brought Mr. Graham to the Pas arrived here at midnight. The party left the coach at 8 o'clock in the morning and two hours were spent in a tour of inspection of the new town and in a general survey of the surroundings. A visit was made to the area where H. P. Ingler, late of Fort Arthur, is erecting a \$150,000 mill which will be in operation by the summer. He expects to be cutting a quarter of a million feet of lumber each working day.

Among those who met Mr. Graham were Judge E. C. Benker, G. H. Harrow, who for the last forty years has been a resident of the district, J. H. Gordon, a prominent lawyer, and many others.

All of One Opinion.

At noon the visitors and the residents of the village gathered on the bank of the Saskatchewan for the ceremony of the first sod. Judge Benker presided and after explaining the nature of the gathering, he introduced the minister. He asked Mr. Harrow to address the crowd. Mr. Harrow, in his address, pointed out the importance of the Hudson Bay railway to the province and the fact that it would be a link between the west and the east. He said that the Hudson Bay railway would be a link between the west and the east. He said that the Hudson Bay railway would be a link between the west and the east. He said that the Hudson Bay railway would be a link between the west and the east.

No Doubt as to Success.

It was not proposed to build a railway line in the northward to Hudson Bay. Such an enterprise must prove a massive value to the province as a whole. Very careful investigation of the project had been made and it was found that it was feasible. With reference to the benefit which the Pas itself would receive.

from the construction of the Pas, it was unnecessary to speak. The site of the Hudson Bay railway was a beautiful one and in the course of years there would be built there not only a village and a town, but a city. The Hudson Bay railway would be a link between the west and the east. The Hudson Bay railway would be a link between the west and the east. The Hudson Bay railway would be a link between the west and the east.

Formal Inauguration.

The special which was to be used on the occasion was then handed to Mr. Graham. The wooden handle of the implement was all bound in silk ribbon in red, white and blue. The steel was gilded and bore an inscription showing the occasion on which it had been used. The minister inserted the shovel into the turf and declared the work to which he had devoted so much time and effort during the last few years to be formally inaugurated.

After the ceremony, a luncheon was served at the hotel. Mr. Graham was presented to the minister by the little daughter of Mr. and Mrs. Gideon Halloway, an old Hudson Bay resident, and the Indian and Old Chief, who had been a resident of the Hudson Bay for many years.

At the ceremony, the people present spent some time in conversation on the ground.

At which the minister had turned out into small fragments, all of which were carried away as souvenirs.

Bridge a Big One.

The new bridge which its approach will be sixteen hundred and fifty feet long. The structure proper will be four hundred and fifty feet long and will be forty feet above low and twelve feet above high water. The river is about a mile wide at the present time, being at its lowest. As the structure is to be a bridge, it is necessary that it should be high above the stream. The contract calls for the completion of the work by the end of March.

The bridge-building equipment of Ackles and Mann was delivered at the Pas on the day of the visit of the minister. This consisted of a pile driver, bridge timber, cement mixer, and a number of horses. Pile driving will begin within a few days.

Mr. Graham, who during the summer has built six miles of bridges for the N. W. R. Co. on the ground in charge of operations.

The government of Saskatchewan was represented on the occasion by Hon. A. P. McNab, municipal commissioner, and George Bell, M.L.A., of Edmonton.

Sarita Jury's Verdict.

Sarita, Sept. 8.—The latest fatal case of Donald Alexander Stewart, of Toronto, who was found dead in the St. Clair river, August 28th, has been decided by the jury, coroner. The jury brought in a verdict that Stewart came to his death by suicide, and that the body was afterwards thrown into the river.

TWENTY-FOUR YEARS AGO.

Taken from the Files of the Edmonton Bulletin for Saturday Sept. 10, 1886.

River falling again.

Telegraph line down.

The Calgary Tribune is now printed on a power press.

Jack Price brought in a 25-pound catfish on Wednesday.

Southern Alberta exports travel agents to find good this season.

Chief Pahan has been promised a portable grill with his reserve.

Chief Pahan and family left for Banff spring on Friday.

Several hundred loaded horses were recently bargained for at \$10.

Telegraph construction will be completed to Fort Saskatchewan this evening.

Geo. Osgood had a sheep eaten by wolves this week in a field close to his house.

Four inches of snow fell on Monday night at the Black Mud. None at Edmonton.

Alex. Ross, brother of D. Ross, of the Edmonton hotel, arrived by Monday's stage.

Pete Campbell is the name of both the brewers of the Edmonton and Calgary stage.

J. Looky is having his building occupied by Mr. Roy as a dwelling and registry office pointed.

John Tomlinson late Indian instructor at Duck lake died recently near Ottawa of softening of the brain.

Dr. McKay and family left for Lesser Slave lake on Tuesday. Two boys were taken to hospital at Edmonton.

The geological survey party came in from Beaver hills this week and from the Rocky Mountains house overland.

Pine head of cattle and a pony and a buckboard were stolen from C. A. Tompkins Pleasant Forks, Assa., on Tuesday.

Dr. Munro, clerk of the court, is about to leave for Green Bay, Wis., to accept a position as a physician.

Mr. and Mrs. C. F. Strang, are applying for a divorce on the ground of desertion.

Senator Carvell, of the Edmonton and Saskatchewan Land company, is said to be preparing for appointment as lieutenant-governor of the Northwest.

A shooting match between some drunken Sars and Indians and three police took place on August 23rd at Calgary. The Indians stamped the police and got away. One of them is reported wounded.

The medals for the members of the Scouts' Scouts' medals at Edmonton arrived by mail. The name of John Smith has been engraved on the ring of his medal at General Strang's expense.

On Sunday His Lord the Bishop of Saskatchewan held a confirmation service in All Saints church, at Edmonton. Twelve persons received the rite of confirmation.

BLACKHANDERS ARE ACTIVE.

Attempts Made to Destroy Homes of Two New York Italians.

New York, Sept. 8.—The activities of the dreaded "blackhand" show no diminution, an attempt being made today to destroy the homes of Italians who refused payments to the society.

A blackmailer sought to blow up and burn the house of Frank Mattetta, a contractor on Thirty-fourth street, New York, because he would not pay \$10,000. Mrs. Mattetta had fled to Europe with her children fearing they would be kidnapped. Firemen checked off the flames in Mattetta's house and threw two unexploded bombs out of the windows.

Blackhanders ignited a can of explosives against the front door of Giovanni Palmera's house in East Ninety-seventh street early today. The can burst out without exploding the can.

COMMERCIAL

WINNIPEG GRAIN MARKETS.

Winnipeg, Sept. 9.—The weather map today indicated clear weather prevailing in the prairie provinces with slightly higher temperatures.

The wheat market opened steady, but on account of decline in the American markets, values declined and closed below the opening. The cash market opened steady and fluctuations were slight. The market closed at 1/2 to 3/4 lower. Flour was strong and the price gained 1/2 over yesterday. The closing price was 25 1/2.

The American markets opened weak and the bears forced the price down.

CHICAGO GRAIN MARKETS.

Chicago, Sept. 9.—Wheat prices showed substantial gains after a period of lower prices. There was a sharp break at Liverpool and the improved conditions in spring wheat as shown by the government prompt export general selling through commission and by local trade.

Later some of the commission houses closed on resting orders and shorts noting the meagreness of the offerings attempted to cover and the rally resulted. Russian news were abundant and the bulk of it came from foreign sources. Bushmills estimated that the world's shipments for the week at 17,500,000 bushels, which if realized, will be the greatest on record.

Australia shipped 1,636,000 bushels last week as against 464,000 bushels last year, and Argentina shipped 1,126,000 bushels against 184,000 bushels last year, which was one of those that European buyers are getting enough wheat to supply their deficiency without going to America for supplies. Liverpool closed 1/4 lower. Antwerp 1/2 lower, while Paris was unchanged to 1/2 higher. Berlin 1/2 higher and Budapest unchanged.

Crop expert now believes that the government did not show a high enough condition on spring wheat yesterday. According to his analysis he states that the government will have

Asaya-Neurall

For Nervous Exhaustion

Headache, Insomnia and Neuralgia are generally the result of exhausted nerve centers. The true remedy is not a paralyzing drug, but Food, Rest and nerve repair.

"ASAYA-NEURALL" is made possible this time. It feeds the nerves, induces sleep, quickens the appetite and digestion; freedom from pains and buoyancy of spirits result. \$1.50 per bottle. Obtain from the local agent.

R. M. CARPENTER, G. S. ARMSTRONG.

show a still higher condition in their final report to be correct. The weather condition is favorable for preparing the ground for winter wheat.

The "Modern Miller" says: "Recent general rains enable farmers of the wheat section where lack of moisture hindered planting to finish this year's crop. The soil is in good condition to receive seeds. A full average would be needed to winter wheat which may succeed last year's."

The secretary of agriculture of Saskatchewan writes: "Fitting wheat and oats completed and threshing fully under way. Heavy rains and unsettled weather in the south part of the province, but fine in the northwest. There has been some slight frosts during but the general situation is entirely buoyant. Cash handling reported a better million demand for wheat today, but no figure given. The market is in a better condition. The movement in the north-west continues to show a decided advance in the wheat market. Primary points received 1,366,000 bushels today, compared with 1,450,000 bushels last year."

SATURDAY, SEPT. 10, 1910.

THE MOVING PICTURE SHOW.

The moving picture machine is a most effective teacher, and it usually has a large class of young people taking in the lessons it imparts. For that reason there should be the more care exercised on the part of all concerned as to what kind of lessons it teaches. The lesson good or bad, it is impressed on the child mind most fully and will remain there to exert its influence in the after years. The managers of moving picture shows have a heavy responsibility in the character of the pictures they allow to be shown before their childhood audiences.

But they do not bear the whole load. Part of it rests upon the parents. It is the business and duty of them to find out what their children see upon the screen—or better still, to find out beforehand what the children will see if their parents are allowed to go. By doing that, and by steadily refusing to let them attend harmful or undecent pictures, they can make it unprofitable to allow the wrong kind of pictures to be shown. Theatre managers, who are not the taste of their patrons. If these demand clean and useful exhibitions they will get them. If they refuse to do the contrary—or leave the theatres dependent entirely on those who want such—there they are. It is the duty of the film show manager to make sure that the pictures are not only useful, but that they are to the right kind of "picture show" while for the child's sake and because it will encourage exhibitions of the right kind. It is imperative to keep them away from the other kind—impure for the sake of the child, and for the sake of what may be done to make such exhibitions unprofitable, and therefore scarce.

The police, too, have their share of the responsibility. There will be found in the theatre district of the newspaper business, those whose sole aim is to make money regardless of consequence. They will do anything to get their children away from the theatre by exercising proper vigilance as to what their children are shown in houses of entertainment. Here the duty of the police is to make sure that the theatre manager will not do what he must be prevented doing, that he could not do if he were a rowdy element are not content with ineffective exhibitions, they must get along without any. If they do not do their duty the police, for the sake of society, must obviate the consequences of their neglect, as far as possible. There should be sharp and regular supervision of the moving picture houses.

Nor are the newspapers without a part in the matter. On the papers parents will rely for the most part for information as to the character of the films exhibited. It is their part to tell the truth and take the responsibility for it.

The moving picture show is with us. It has come to stay. It is either a force for much good or much evil. The time to determine which it is to be is now. If it is up to us to concern—and all are concerned—to concentrate their efforts to make it a thing of usefulness and not a curse.

TO TELL THE TRUTH!

Mr. Roosevelt has started what looks very much like a "trust-busting" campaign, whether on behalf of himself or of President Taft is not quite so clear. He has already named "trusts" and is "kneeling" the country in pretty energetic fashion. The platform announces quite "trust-busting" ideas favored by the "insurgent" or "progressive" Republicans, or is nearly enough aligned to them to secure the allegiance and arouse the hope of that militant section of the party.

Clearly the avowed purpose is to "kneel" the insurgents to the "trust-busting" campaign which has been the time act of the party and led it into trouble and defeat. Whether, having recognized the party, he plans to lead it in a campaign for a second term for President Taft, or to make himself the head in same as well as fact and become the party candidate for the next election, remains to be seen. The president does not seem to have been strong enough, or had been in the saddle, to have hoped successfully with Senator Aldrich and his crew, expounding he would have been the enemy of another kind. The former chief executive may therefore be simply using the trust-busting idea to force out of power, intending to swing the party in behind his campaign when the time for President Taft's election comes.

In declaring for the "new nationalism" Mr. Roosevelt characterized the issue as a "struggle of free men to gain and hold the right of self-determination against the selfish domination of those who twist the methods of free government into machinery for oppression." In the regular "trust-busting" issue is joined, and we must fight or lose. A good many people, including President Taft, would do well to like to know who is meant by "we." The platform from which he hopes to elect these unsuspecting antagonists for the advantage of the equally unsuspecting "we" follows:

1.—Domestic and foreign interests.
2.—Complete and effective publicity of corporate affairs.
3.—Prohibition of laws prohibiting the use of corporate funds directly or indirectly for political purposes.
4.—Government supervision of the registration of all corporations doing interstate business.
5.—Personal criminal responsibility of officers and directors of corporations.
6.—Increased power of the federal bureau of corporations and the state commerce commission.
7.—Revision of the tariff, one schedule at a time, on the basis furnished by an expert tariff commission.
8.—Revision of the tariff, one schedule at a time, on the basis furnished by an expert tariff commission.
